MEDnorth

1000ml Gel Automatic Disinfectant Dispenser

Information

Overall Dimensions	L160×W117.3XH285mm	Main materials	ABS，PP，EPDM Housing: ABS Refill tank: PP Liquid tube: Rubber EPDM
Colour	White color (Black colour is optional)	Liquid tank Capacity	Soap tank: 1000ML
			700ml Disposable bag (700ml) is optional
Power Supply	4pcs C size alkaline battery; (AC/DC adaptor is optional)	Installation	Wall mounted, (Floor stand & table stand accessory is optional)
Sensor distance	5~8CM	Sensor type	Infrared sensor
Liquid dosage/ time	0.5ml(tolerance+/-0.3ml) Liquid dosage amount will change according to the soap viscosity	Liquid adjustment	N/A
Liquid suitable	Suit for : Soap/Disinfectant/hand gel; Disinfectant 75% alcohol contained is suitable	Low battery remind	Yes
Use place	Indoor	Certificate	CE，RoHs
Others	Lockable		

Electrical Parameters

Working current	≤350mA	Standby current	≤50uA
Input voltage	DC 6V	Low battery remind	≤4.8V
The lowest working voltage	4.5V	Low battery prevention	N/A
LED light instruction	LED flash when Power on/off, low battery, normal working	Motor parameter	6500rpm
Product mechanism cycle	120,000 Times (Test result under continuous operation)	Battery life	40,000times Test result under continuous operation by using alkaline battery)

Installation Options

Wall mounted	Table Stand	Floor stand	Floor Stand & Ads Plate

SECTION 5:Optional　　　　Accessory

Tray		Materials: ABS
Floor stand		Materials: Steel with painting
Ads plate		Materials: Steel with painting
Table stand		Materials: Steel with painting
AC/DC Adaptor		110V, 220V Optional
